CORC President Announces Summer Meeting!

The next potluck will be Sunday, May 1, at Genoa Township Hall. At 5 PM, prior to the normal 6PM starting time, we will have a loop antenna construction project. CORC will supply the materials & directions to construct these antennas. (Get there early, as we will have parts for about 8-10 antennas) These antennas will offer a deep null and are used for direction finding. We will have our dinner at 6PM. Bring a covered dish to share. After dinner there will be a quick photo presentation of many of the clubs remote sites as well as some fox hunting techniques. Then we will have an actual fox hunt on the property! Come and enjoy the fun and learn (or polish) a skill. Bring your handheld 2 meter radio so you can join in. **Again, if you are just coming for the potluck dinner, it begins at the normal 6PM time.** See the flyer attached to this newsletter. If you want to build an antenna, 5 PM is the time to be there... The club will also be giving away two weather radios and other door prizes to lucky attendees as well as holding a 50/50 drawing.

Field Day June 25th

If enough interest is shown at the May 1st meeting, CORC will have a small field day site at the Genoa Township Hall on Saturday, June 25th. It is designed to allow a glimpse of field day to someone that has never been involved before. We will be operating indoors using commercial power. All are welcome, it is your chance to operate on the low bands using our license. We will start at 2 PM putting up antennas and stations. Bring snack food to share. There is a grill available if you want to use it. We will probably finish up around 9PM. This will be a fun activity.

CORC is Searching for a Newsletter Editor

CORC is looking for someone to take over the Newsletter Editor position. All this position requires is the actual editing of the newsletter as we already have a volunteer to label and mail them. Please contact the President, Laura, KA8IWB, at president@corc.us for more info.

Information from the Last PotLuck!

February 28th was our Annual meeting and pot luck. Prior to the meeting the club sponsored an ARRL test session. Tony, N8RRB, Warren, W8VET and Laura, KA8IWB were re-elected to the Board of Directors. Scott Yonally, N8SY, Ohio Section manager, presented the club with a Special Services Club certificate. He also donated hats which N8YMT and W8RRJ won. An ARRL handbook was won by Trish Starrett. Use of the CORC rock bound rig for one year was won by Stan Sutton, KD8KBX. Bill Cady, K8UHH, won the 50-50 drawing. Gift cards were won by John Ness, K8NJ, Gayle Adams, W8KWG, and Justin Starr, KE8DHY. The Yaesu handheld radio was won by Linda Rowe, KE8BCU. (A brand new Extra class operator by the way)

73,

Laura, KA8IWB
CORC President

Kroger Rewards

April is the month to renew your Kroger reward to CORC. This does NOT take away from your fuel points. Kroger makes an additional donation to charities based on your purchases. Last year the club received nearly \$300.00 this way. See details on the CORC website at: <http://www.corc.us/page9.html> for signing up or renewing. This NEEDS to be done each year!

Membership Update

By John Perone, W8RXX
Membership Chairman

Many thanks to the following who have donated their time, talent, extra money, printing, etc. since the last newsletter was printed. This little extra helps keep CORC financially sound.

26th Annual Columbus Hamfest

Plan now to attend the Columbus Hamfest, Saturday, August 6, 2016. This year it is at a new location. The new Aladdin Shrine Temple is in Grove City off Stringtown Road and I-71, behind TeeJay's Restaurant. Talk in will be on 146.76 repeater.

The Aladdin Shrine Center, and the Voice of Aladdin Amateur Radio Club, welcomes the ARRL Ohio Conference <http://arrl-ohio.org/> Vendor setup at 6 am, open to the public from 8 am, until 2 pm. \$5 admission, under 12 is free. Sell from your vehicle, or from the comfort of a table inside. Flea market space is free with paid admission. Indoor space includes a table and 2 chairs. First come first served. Forums covering a wide range of fun and interesting amateur radio topics, including the ARRL Forum, and the Ohio Single Side Band semi-annual meeting. VE Amateur Radio Testing will be available.

The flyer is available at the CORC website at: <http://www.corc.us/Hamfests.pdf>

For Hamfest information contact: Jim Leonard, WD8MRT 614-264-8566
We ALL need to support the Columbus hamfest to keep it alive and growing.

Free Advertising for CORC Members

One of the benefits of being a CORC member is free non-commercial advertising in this newsletter. Get rid of that unused radio equipment and turn it into cash. This also helps the new ham get started by buying used gear at a smaller expense. Get your ad to the editor by emailing newsletter@corc.us.

COTN Information available on CORC Web Site

An informative article written by C. Matthew Curtin, KD8TTE, explains the purpose of the Central Ohio Traffic Net and some of its practices. It is available to be read or downloaded from our web site at: [http://www.corc.us/COTN%20\(CORC%20Newsletter%202016\).pdf](http://www.corc.us/COTN%20(CORC%20Newsletter%202016).pdf). COTN's website can be found at www.cotn.us for more information.

TRAVELIN' TONY'S TIMETABLES

by Tony Fabro, N8RRB

At the last CORC Potluck, we had several hams in attendance who had just recently received their amateur licenses, and one who had just passed the test and was waiting for his callsign to be issued. It's great to see the new hams in the hobby! So for those of you who are new to the hobby, this article is for you. Welcome to the wonderful world of Amateur Radio!

I've heard new hams say something similar to the following, "OK... I can listen to people and talk on these things called repeaters. But what do I *do* with my license?" The answer to that question begins with a recognition that ham radio is a very diverse hobby. There are groups and on air nets covering dozens of interests. Do you like public service? How about putting together your own equipment, or designing and building homebrew antennas? Whatever it is, ham radio likely has a focus group to match your special interest.

The first place to look for these groups is in your local community. Most people start their ham careers talking on the local repeaters. Supporting area repeater clubs (such as CORC) helps to ensure that the repeaters they maintain will be available for you to use, and also be in good working order if a local disaster should take place. Local repeater clubs are also a good way to get to know the hams in your community.

Beyond the repeater clubs, public service groups such as the Central Ohio Amateur Radio Emergency Services provide emergency communications in times of disaster, and assist in other events such as marathons and parades. Other such groups include weather spotting (Central Ohio Severe Weather Net and Skywarn), and formal traffic handling (Central Ohio Traffic Net). Public service can be very challenging, but also very rewarding and a lot of fun. There are also special interest groups that focus on particular aspects of ham radio (such as QRP or DX), and groups who get together just to chitchat (some formal, others not).

And don't forget to tap into the greatest part of the hobby, especially if you need help: the hams themselves! We coordinators of the CORC Tech Net, for example, try to focus on topics that appeal to both new hams and seasoned veterans. CORC also occasionally has roundtable nets just to talk about whatever technical topics are on your mind or to answer any technical questions you might have. The group of hams that regularly checks in has an extensive technical background and can at least steer you in the right direction.

My whole point in what I've said here, then, boils down to this: *get involved in the hobby!* If you don't join a club or group, at least get to know the hams you talk to on the radio. There's much to experience and to learn from them!

Dayton Hamfest

Dayton Hamvention will be held 20-22 May 2016 at the Hara Arena Complex in Dayton, Ohio. The hours are as follows:

Flea Market

Friday: 8:00 AM to 6:00 PM
Saturday: 8:00 AM to 5:00 PM
