## What the heck is ULS???

By Joe Hahn, W8NBA

What is USL? I've heard of a USB port for the computer and Roy is WA8UHB, but I've never heard of ULS. Well as Amateurs, we will all know what USL is before too long. It stands for Universal Licensing System and it's the new way that the FCC will keep track of us. You will have to register under ULS to change anything on your license.

The FCC describes its new system in this data taken from their website:

*Licensing is the primary mission of the Wireless Telecommunications Bureau. Once allocations are made, it is our responsibility to get licenses processed as quickly as possible. This is not a small feat when you consider that the Bureau processes hundreds of thousands of license applications annually.*

*As our business has changed, our licensing database and processing systems have become more complex. In fact, the Bureau currently has 11 different licensing systems that process application requests and issue authorizations. While we are proud of our record, we feel that it is time to step back and look at how we do business. To this end, we have devoted resources to rethinking our whole licensing process. The result is a new "Universal" Licensing System (ULS) that will be the first comprehensive reform of our process in years. This system will dramatically change the way that you interact with the Commission.*

*For additional information visit our [ULS registration help](#).*

So what does this mean to us? A lot! You have to register with the ULS before you can change anything on your license. Moving, upgrading or renewing all require registering with ULS before the FCC can process any of those requests.

*Cont. page 2*

While I'm not going to print all the information they have at the FCC website, I will give you locations on where to get the information you need. While Internet access is not required to register, they make it a whole lot easier to register over the Internet. This information is from the FCC FAQ.

## Who Has To File and Why

### 1. Why do we register our TINs with the FCC?

The Debt Collection Improvement Act of 1996 requires the FCC to collect this information.

Congress enacted the Debt Collection Improvement Act (DCIA) as part of an effort to increase collection of delinquent government debts. As a result of the DCIA, the Commission and other executive agencies are required to collect Taxpayer Identification Numbers (TINs) from each entity doing business with a Federal agency, including applicants for, or recipients of, a Federal license or permit.

In addition, the TIN will be used as a unique identifier for each licensee within the ULS. The TIN, along with a user-selected password, will provide licensees access to their licensing records in order to renew or modify their licenses.

### 2. I am with a state/local government agency and we don't pay taxes. Do we have to file?

Yes, aside from the DCIA requirements to collect TINs, the TIN will be used as a unique identifier for each licensee within the ULS. The TIN along with a user selected password will provide licensees access to their licensing records in order to renew or modify their licenses. As a result of the Debt Collection Act, the Commission and executive agencies are required to monitor and provide information about their regulatees to the U.S. Treasury. See [question 1](#) for a description of this Act.

To get all the answers read the entire FAQ at [http://www.fcc.gov/wtb/uls/uls\\_faq.html](http://www.fcc.gov/wtb/uls/uls_faq.html).

## So how do you do this?

This information is from the ARRL Site at <http://www.arrl.org/fcc/uls101.html>.

*The FCC says only a small minority of the Amateur Radio population has registered in the FCC's Universal Licensing System, which was deployed for the Amateur Service on August 16, 1999. If you're unregistered because you're not sure how to register, here's a ULS primer for those registering on-line.*

In response to requests from the amateur community for simplified, yet detailed, steps to register for the ULS, the ARRL offers the following procedure for individual Amateur Radio licensees:

## The Central Ohio Radio Club Newsletter

1. Start *Netscape Communicator* ver 4.5 or later. (Other browsers may work, but the ULS supports only *Netscape*. It's available free at <http://www.netscape.com> --click "Browsers"). The FCC indicates that the following browsers have been tested and are presently compatible with ULS: *Netscape Communicator* vers 4.7, 4.61, 4.51 and 4.5. (Note: Your computer must be equipped with a 32-bit operating system such as Windows 95, Windows 98 or Windows NT). **Ed note: I used IE 5.5 with no problems...**
2. Go to the Universal Licensing System home page, <http://www.fcc.gov/wtb/uls>
3. Click "TIN/Call Sign Registration" on the main ULS screen.
4. On the next screen, check "Register Now" and click "Continue".
5. On the next screen, check "An Individual" and click "Continue".
6. You should now be at the Form 606 screen, identified in tiny print on the upper left. Complete *only* the "Licensee Information" part of the form--the top part. You do not need to complete "Contact Information." (That's designed for those who deal with the FCC via a communications law firm or other third party.) You also do not need to be concerned with something called "SGIN" that you might encounter.
7. The "Taxpayer Identification Number" or "TIN" is your Social Security Number. Enter your SSN without any hyphens or spaces (ie, 123456789).
8. Complete your name and address information. First name, middle initial, last name, and any "Suffix" such as "Sr", "Jr", or "II", as appropriate. You may provide a PO Box address, a street address, or both. You must include a ZIP code. The system will detect if the ZIP code does not match the state provided.
9. Form 606 still requires you to put *something* in the telephone number field, even though the FCC has said that a telephone number is not now required of amateurs and that it will not make telephone numbers public. If you do not wish to give the FCC your telephone number, you can fill this field with zeros or with your area code plus 555-1212. A fax number is not required. The FCC does not require an e-mail address, so if you prefer not to provide it, leave that field blank.
10. Once you've provided all the "Licensee Information" scroll down to the bottom of the screen.
11. At the bottom of the screen you must pick a password of at least five characters. We recommend that you do *not* use your call sign for this. Enter your new password in the "New Password" field. The characters you type will be displayed as asterisks (\*) on the screen, so type carefully.
12. Verify the password you've selected by entering it again in the "Verify Password" field. Again, the characters you type will be displayed as asterisks (\*) on the screen.
13. Type in a personal identifier in the next field. The FCC suggests using your mother's maiden name, but any word or name you prefer will suffice, provided it fits the field.
14. If you click "Notice to Individuals" it will tell you that everything but your Social Security Number will be available for public inspection. The FCC has told the ARRL that it will not make telephone numbers or e-mail addresses public. We have no reason to date to believe that this has not been the case.
15. Once you're happy with your choices, click "Submit".
16. If you leave out anything or make an error, the ULS will list "Error(s)" when you attempt to submit the form. If this happens, go back and correct the errors identified and click "Submit" again.
17. Once you have the form correctly completed, you'll be asked to submit your call sign(s). Click "Enter Call Signs" and follow the directions. If you are not yet licensed (you don't have a call sign yet) you can click "Continue" without entering a call sign. If you have no call sign yet, skip over the next item.

18. You should now be on the screen that requests you to enter your call sign(s). Enter your individual Amateur Radio call sign in the first space provided. If you are a club station trustee, you may enter your club station call signs, but this is not necessary. The FCC requires a separate registration and an Assigned TIN for club stations.
19. Once your call sign(s) are entered, click "Submit" at the bottom of the form.

You now should be registered in the ULS. Your screen should display a form that shows your "Licensee Information" as well as Licensee ID Number, personal identifier and password. It's a good idea to print this screen and keep a copy in your files for safekeeping (primarily in case you forget your password).

That's it! You're done! You're now registered in the Universal Licensing System. ULS registration is required before amateurs can transact business (ie, file applications, renewals, vanity call sign requests, address changes, etc) with the FCC.-- *Rick Lindquist, N1RL, with assistance from Bart Jahnke, W9JJ*

Now for filing on paper. The form you need is Form 606. I have downloaded that form and will make it available to **CORC** club members for a SASE. My address is on the cover of this bulletin. I am sure you will also be able to get them from Universal or the ARRL.

## What forms do I use?

All of the Forms mentioned can be found on the ARRL Web page. See <http://www.arrl.org/fcc/forms.html>. Here is a brief synopsis of the forms needed for various purposes in the Amateur Radio Service:

<u>Amateur Purpose:</u>	<u>Form</u>	<u>Plus Supplements:</u>
Pay Vanity Fee	159	605-main form, Schedule D
<b>Renew or modify an amateur license</b>	<b>605</b>	-
Apply for a Systematic Call Sign Change	605	Schedule D, Part 1
Apply for a Vanity Call	605	Schedule D, Part 1; Form 159
Apply for a Morse Code Exemption	605	Schedule D, Part 2
Obtaining a duplicate license	605	-
<b>Register under ULS</b>	<b>606</b>	-
Register under ULS (non-US citizen)*	606	-
Renew or modify an amateur license**	605	-
Register under ULS (club station)***	610-B	-

\* Must contact the FCC and ask for an Assigned Taxpayer Identification Number (ATIN) in order to register under ULS. See contact for the FCC Support Staff below.

\*\* The FCC will only accept FCC Forms 610 through February 16, 2000 and only if the amateur puts his or her Taxpayer Identification Number in the upper righthand corner (for US citizens, this is your Social Security Number).

\*\*\*The FCC Form 610B can still be used, but club trustees must contact the FCC and ask for an Assigned Taxpayer Identification Number (ATIN).

I hope this has helped and not confused anyone even further than they are already. The FCC is still part of the US government and you know how the government loves paperwork. Up to a few weeks ago I had no idea this was coming. It's been in effect for over a year, but just now coming to light. I will keep you updated as more information becomes available.

# What is a HAM?

*By Gerry Crenshaw, WD4BIS, Garland, Texas*

Have you ever wondered why we radio amateurs are called HAMS"? Well, according to the Northern Ohio Radio Society, it goes like this: the word ham was applied in 1908 and was the call letters of one of the first Amateur wireless stations operated by some members of the HARVARD RADIO CLUB. There were Albert S. Hyman, Bob Almy and Peggie Murray. At first, they called their station Hyman-Almy-Murry. Tapping out such a long name in code soon called for a revision and they changed it to HY-AL-MU, using the first two letters of each name.

Early in 1909, some confusion resulted between signals from Amateur wireless HYALMU and a Mexican ship named HYALMO, so they decided to use only the first letter of each name and the call became HAM.

In the early pioneer unregulated days of radio, Amateur operators picked their own frequency and call letters. Then, as now, some Amateurs had better signals than some commercial stations. The resulting interference finally came to the attention of congressional committees in Washington and they gave much time to proposed legislation designed to critically limit Amateur activity.

In 1911, Albert Hyman chose the

controversial Wireless Regulation Bill as the topic for his thesis at Harvard. His instructor insisted that a copy be sent to Senator David I. Walsh, a member of one of the committees hearing the bill. The Senator was so impressed, he sent for Hyman to appear before the committee. He was put on the stand and described how the little Amateur station was built. He almost cried when he told the crowded committee room that if the bill went through, they would have to close up the station because they could not afford the license fees and all the other requirements that were set up in the bill.

The debate started and the little station HAM became a symbol of all the little Amateur stations in the country crying out to be saved from menace and greed of the big commercial stations who did not want them around. Finally, the bill got to the floor of Congress and every speaker talked about the poor little station "HAM."

That's how it all started. You will find the whole story in the Congressional Record. Nationwide publicity associated station HAM with Amateurs. From that day to this, and probably to the end of time, in radio, an Amateur is a HAM.

# MEMBERSHIP UPDATE

by Jim Gifreda, W8MAP  
Membership Chairman/Treasurer

Our membership roster now totals 299 members as of September 2, 2000. Sixty-nine of those members are sponsored by another dues paying family member.

The Board of Trustees would like to welcome the following new CORC members listed below:

KC8OVN	Michael Hullhorst	KB8RZW	Melisa Waters
KC8PBD	Chris Grant	KC8FRJ	Christopher Cox
K3ZAA	Bill Welch	N4LJ	Nathan Jenkins
N8MIF	Earl DeVinney	KF4ZCP	Paula Jenkins
K8UL	John Tipka	KC8NMJ	Larry O'Neal
KB8RZV	Allen Waters	WB4LTS	Kent Brooks

Please greet them when you hear them on the air!

Once again, many CORC members contributed to the operation of the repeaters. The following individuals have made monetary or in-kind contributions since the printing of the last newsletter. Our thanks go out to them!

KB8YBW	Peter Shapter	W8RRJ	John Hull
W8AVM	Dick Redman	W8RXX	John Perone
KC8EVS	Franklin Counts	W8MAP	Jim Gifreda
KC8EVP	Eian Counts	K8VKA	Ed Schleppe
KB8ODS	Edward Whitney	WD8QWR	Phil Carter
KC8NMJ	Larry O'Neal	KA8IWB	Laura Lafferty
KI8GW	Frank Piper	K8NIO	Trigg Tabor
KC8ESO	Jackie Piper	N8RRB	Tony Fabro
K8UL	John Tipka	W8NBA	Joe Hahn
KB8RZV	Allen Waters	WA8UHB	Roy Hook
KB8RZW	Melisa Waters	KC8FRJ	Christopher Cox

## CW Learning Net

Want to work on that five word per minute CW to get to that next license level? If so, check into the CW Learning Net on the 145.49 K8NIO Repeater each Friday evening at 8:00 PM.

## Technical Net

Want to get help with that technical problem? If so, check into the Technical Net on the 145.49 K8NIO Repeater each Sunday evening at 9:00PM. You will be able to find help for those APRS, Packet, computer and other problems.

## Slow Scan TV Net

Want to know more about slow scan television? If so, check in to the Central Ohio SSTV Net on the 145.49 MHz K8NIO Repeater at 7:00 PM on the first Sunday of each month.

## THE GREAT CONTROLLER DEBATE OF 2000

By Phil Carter, WD8QWR

Since no election year can possibly exist without some form of debate, we here at CORC Central contacted both our current Controller - CORCy and the wannabe whiz-bang new-kid-on-the-block - Peecee. It seems that they have been caught up in a whirlwind discussion of various issues and we ask both of them to give us a BRIEF talk on what was in their minds. Well, in their own words....

**[Editor]** Tell us what has been happening in CORC these past few months. Let's start with you CORCy since you're the oldest...

**[Peecee]**...ha! Take that!

**[Editor]** ...Now be nice you two..

**[CORCy]** Well lets see...I was born a long time ago in 1976 I think it was...or was it 1971...

**[P]** His memory isn't what it used to be.

**[C]** ...That's true sure enough. Just before Dayton this year as I recall, I had a bout with amnesia that caused quite a stir. I couldn't even remember how to make myself talk, and I was sooo weak! It took many weeks in the hospital before I remembered how to talk, and working, well, that's another story...They had to do brain surgery and realign my database and...

**[P]** Now you got him started we'll NEVER hear the end of it...

**[E]** What happened?

**[C]** I don't know. I was just sitting there minding 76's business when POW! ZAP!! ZILCH!! ELECTROCUTION SOUND!! Boy - that HURT! I couldn't remember anything. They rushed me to Dr. Phil, and the rest is kinda a blur...

**[P]** I told you he's getting old.

**[C]** yeah quiet you box of ...

**[E]** ...now I told you to be nice.

**[C]** ...Sorry, old lightning strikes injury...It haunts me every now and then.

**[E]** Please continue CORCy.

**[C]** As I was saying, I forgot almost everything. Dr. Phil re-taught me most of what I forgot, but I'm still a little fuzzy on some things.

**[E]** Like what?

**[C]** Well, Rapid Access numbers for one.

**[E]** Maybe our readers can help you out.

**[C]** GEE...ya think?

**[P]** Somebody has to!

**[E]** Let's start with something easy. How about the 147.33 repeater. Do you remember those?

**[C]** I think so. At least the code and number.

[P] here we go...Told you this would be long.

[C] hummm...ah...well...Oh yeah.

[C] How did I do?

[E] Looks about right to me. Maybe our readers have some corrections.

[C] If they do I sure wish they'd tell me!

[P] Somebody should!

[E] HOW BOUT IT FOLKS? IS HE RIGHT? Call me if there is something out of whack, and I will have one of my doctors fix the problem.

[P] But that's a short list. Anybody could remember those. EVEN ME.

[C] OK smarty pants. You do the 146.97 list. My bro had the same thing happen to him last year, and HE came out OK.

[P] OK Take this!...

[C] But you didn't tell us who they belong to.

[P] ...you're sooo smart you tell me...

[E] ...No, tell you what . Let's let the readers tell us. SAME THING GUYS. If Peecee missed something here let me know and we'll send HIM back to the programmers...

[C] ...good riddance! Tell you what I'LL do the 146.76 repeater. That's the hardest!

[P] SHOWOFF.

[C] ..OK.. ok.. ok...here goes... aah

[C] WHEW!

[E] Hey! That was GREAT! Well, what-da-ya say Peecee?

[P] (long pause) Gee. I have to admit, that's pretty impressive.

[E] Well, there you have it folks, right from the controller's mouth. As I said, If CORCy has forgotten anything, or even Peecee...

[P] I NEVER forget.

[C]... SUUUURE...

[E] ...AS I WAS SAYING.. IF CORCy has forgotten anything, please let us know. We will get the problem fixed tootsweet.

[P] Tootsweet? That's one of the new REPEATERISMS on CD.

[C] (long pause) What's a CD?

[E] You remember REPEATERISMS don't you CORCy?

[P] I doubt it. He's too old!

[C] I think so... "This is Joe Radidio, and I'm way up here..."

[E] ...That's enough CORCy. That's another story.

[P] Yeah, shaddup already. When I find the right CD player that's worthy of MY talents, I'll know. Then I have them for ALL to enjoy.

[E] We can cover that at a later date. Just come see us at the November GHD party and Bring some good food. CORCy and Peecee have been known to show up with big appetites. See you all there!

[E] Thanks guys! OK Cut!... Let's get this thing out....COPY!

## Repeater Changes Update for 145.49 K8NIO Repeater

By: K8NIO, Wm. Trigg Tabor II

Changes have been a happening ... yeah, yeah yeah. Yes, There have been a few changes made to the 145.49 MHz K8NIO Repeater system. All of this will make it a better communications resource for you. So, check it out.

Now, what's changed? First off, the transmitter profile has been restored to what it was three or more years ago. The receive profile is still being worked on, but has been greatly improved.

There has also been a telephone number change. The reverse autopatch number is now 614-460-3032 and is no longer blocked on your Caller ID. (CORC members that need to do paging or reverse autopatches should contact me for instructions. My e-mail address is [k8nio@arrl.net](mailto:k8nio@arrl.net)) If you use Caller ID with Names, you will find that autopatch calls

come up as "Tabor, William" which is me, "Trigg, K8NIO". Please, let the family or others know to not discuss this telephone number on the air. I am trying to get Ameritech to change the Caller ID name to "K8NIO Repeater", but have not been successful, as of yet, but I'll keep trying.

Also, the auto patch time has been extended. You will have ten minutes for all emergency speed dial numbers, which should help when you are in an emergency. All other calls are five minutes. Remember the repeater autopatch phone line is paid by the minute of use. A few extra minutes won't cause financial hardship, but it is there if and when you need it. Just remember that the autopatch is not intended to replace the roadside pay phone for those private, extended or long distance telephone calls.

Here is a list of the Emergency Speed Dial numbers for your use:

<b>Agency</b>	<b>Emergency Speedial number</b>
<b>9 1 1 ( l i f e - t h r e a t e n i n g e m e r g e n c i e s )</b>	<b>* 911</b>
Columbus Police	<b>* 0</b>
Ohio Highway Patrol	<b>* 1</b>
Columbus Fire	<b>* 2</b>
Weather (NOAA Weather Service)	<b>* 3</b>
Franklin County Sheriff	<b>* 4</b>
Reynoldsburg Police	<b>* 5</b>
Westerville Police	<b>* 6</b>
Worthington Police	<b>* 7</b>
Upper Arlington Police	<b>* 8</b>
Hilliard Police	<b>* 9</b>
Grove City Police	<b>* 101</b>
Dublin Police	<b>* 102</b>
Gahanna Police	<b>* 103</b>
Pickerington Police	<b>* 104</b>
Powell Police	<b>* 105</b>
Bexley Police	<b>* 106</b>
Whitehall Police	<b>* 107</b>
Auto Club (AAA)	<b>* AAA or * 222</b>
Aviation weather (Don Scott Airport)	<b>* 333</b>
Delaware County Sheriff	<b>* 401</b>
Fairfield County Sheriff	<b>* 402</b>
Licking County Sheriff	<b>* 403</b>
Madison County Sheriff	<b>* 404</b>
Pickaway County Sheriff	<b>* 405</b>

## CORC Membership Applications

Ever want a CORC Membership application to give to a new ham or someone that may want to join? CORC Membership applications are always in the Club Display just inside the entrance door at Universal Radio. They are also available on the CORC internet web site at <http://www.qsl.net/corc>. You must have Adobe Acrobat Reader to use this form. It is available for free at the Adobe Website.
